

WHAT'S NEWS

A strong season for our clients

Winter is in full swing and our clients are deep into the 2025 citrus season, especially with Clemengold®. Our role remains to ensure our clients have reliable, compliant workforce support through this busy time.

The pome fruit season is complete, and our teams successfully assisted with harvesting and packing operations – well done to everyone involved!

Remembering Molefe

WE RECENTLY SAID GOODBYE TO A REMARKABLE MAN AND LEADER, MOLEFE JUSTICE MOESA. MOLEFE SERVED KHULANI FOR 17 YEARS.

He was known for his calm confidence, consistent work ethic, and ever-present smile. His humble nature and quiet leadership made a lasting impact on everyone who had the privilege of working alongside him.

He was more than a team leader – he was a true champion of the Khulani spirit. His loyalty, warmth, and strength will remain part of our story.

Backing our people with the right gear

THE WORK OUR TEAMS DO IS DEMANDING – AND THEY DESERVE TO BE SUPPORTED EVERY STEP OF THE WAY.

This winter, we've supplied rain jackets to our nursery crews to help them stay warm and dry during wet conditions. We've also distributed buffs to field workers – simple, practical gear that offers both warmth and a sense of unity.

These are small but meaningful ways we continue to invest in the wellbeing of the people who make our work possible. When teams are equipped properly, they're not just more comfortable – they're more confident, focused, and proud of the work they do.

Did You Know?

There are many benefits to wearing balaclavas in agricultural work.

While they can sometimes carry a negative association, on the farm they serve a far more practical purpose:

- ➔ Protection from cold and wind: Keeps the face, neck, and ears warm during early mornings and cold winter days.
- ➔ Dust and debris shield : Helps reduce exposure to dust, pollen, and debris while working in fields or near machinery.
- ➔ Sun protection: Offers coverage against harsh sun on exposed areas, reducing the risk of sunburn.
- ➔ Improved hygiene: Minimizes contact between hands and face, helping maintain hygiene during work.
- ➔ Sense of uniformity and team identity: Reinforces professionalism and helps workers feel part of a well-supported team.

Growing with purpose: 30 team leaders strong

This season marks a proud milestone for us at Khulani — our team has grown to 30 skilled team leaders. Each one leads a team of 12 to 35 members, with some overseeing more than 50. These leaders are central to delivering the care, reliability, and professionalism our clients count on during peak seasons.

We're also excited to welcome three new leaders to the fold: Matebele, Moena, and Yanga — all already making a strong impact!

Our growth is a reflection of the trust our clients place in us and the commitment of every person who carries the Khulani name with pride.

Why Khulani Workers are an asset on any farm

OUR TEAMS WORK ACROSS CROPS AND SEASONS - GAINING HANDS-ON EXPERIENCE THAT TURNS SEASONAL PLACEMENTS INTO SPECIALISED SKILL. THIS YEAR-ROUND EXPOSURE MEANS KHULANI WORKERS SHOW UP READY, RELIABLE, AND ABLE TO DELIVER FROM DAY ONE.

Skilled, not just seasonal

From pruning to packing, our crews bring efficiency and know-how—built over time, not just one harvest.

Continuously active

We place teams throughout the year, keeping skills sharp and workers engaged.

Reliable and ready

Familiar faces return season after season, cutting down on training time and lifting productivity.

Trusted by the best

Some of our clients now rely on Khulani teams permanently – because they see the difference committed, experienced crews make.
